# BOOK LOAN CONTROL VIA WEB INTERFACE

Access to the catalog of the Library of the Faculty of Veterinary Medicine: http://katalog.nsk.hr/F/?CON_LNG=ZAG&func=find-e-0&local_base=vetf_web

At the same link, you can also access your user profile via the **PRIJAVA** (**Login)**.

Your JMBAG (located on the X Card, used to access Studomat) work both as an ID number and as a password so that you can access your ID card. If you do not have a JMBAG or for some other reason cannot log in, ask the librarian to check the existing data or to check which data you need to use.

After entering the membership number and password, the following will appear:

By selecting the **Moja iskaznica (My ID card)** link, the options for viewing the user account appear, namely borrowed material, previous loans and money transactions.

Selecting Borrowed Materials provides an overview of currently indebted books with the loan period and delays.

By selecting **Obnovi posudbu za sve (Renew loan for all)** or **Obnovi posudbu za odabrano (Renew loan for selected)**, the user can extend the loan period for the allowed time, but only if this option is not already used.

It is possible to view all paid delays by selecting the **Novčani promet** (**Money Traffic button)**.

After completing the account review, the account must be **Odjava (logged out)**!
