E. Veterinary medical education management and administration

INSTRUCTIONS TO PARTICIPANTS

The scientific conference includes presentation of plenary reports, oral and poster presentations of scientific communications on current issues of the veterinary science and the higher veterinary education. With priority will be accepted works, presenting the results of research with students and PhD students. The papers must not be published until now. The program will accept requests for company presentations.

Official languages of the conference are Bulgarian and English. The text on the slides in Power Point presentations should be in English and this in poster - Bulgarian or English.

Requirements:

Plenary report – up to 30minutes

Report - 10 minutes

Poster - size 75h150 cm

INSTRUCTION TO AUTHORS

The authors declare their willingness to participate in the conference through a letter which must contain the following information:

- regarding – presenting author's name;

- names of all authors (please indicate the students);

- preferred scientific field;

- type of presentation (plenary report, oral communication or poster). The organizers reserve the right to change the form of participation for which authors will be informed;

- complete address of the corresponding author and e-mail;

- name of the presenting author;

- each manuscript must be sent by separate e-mail.

Each author can present up to two reports.

INSTRUCTIONS FOR PREPARATION OF THE MANUSCRIPTS

The manuscripts from the Conference will be published in a Supplement of Bulgarian Journal of Veterinary Medicine as original papers.

Manuscripts, in English, should be submitted to the e-mail address vmf-conferences@abv.bg until 1st of July 2019 for printed and electronic copy and until 1st of August 2019 for electronic copy, only.

Manuscript preparation guidelines

The text should be typed on standard A4 sheet, 30 lines per page, up to 5 pages (alongside with the abstract, the list of references, tables, figures etc.). **Original papers** should be organized in the following order:

- **Title.** Authors are kindly requested to use brief titles (about 80 characters), strictly to the point and without abbreviations.
- **Authors' names, family name and address** of the institution where they work. The initials of their first and second names and their full family names should be written. Affiliation is marked by superscript after the name (Arabic numerals).
- **Summary.** The summary should state briefly (max. 1000 characters) the essential information and paper contribution to the respective scientific topic.
- **List of key words (up to 6)**
- **Introduction**
- **Materials and methods**
- **Results**
- **Discussion.** The conclusions might be included in "Discussion" or in a separate section "Conclusions".
- **Acknowledgements**
- **References**
- **Tables**
- **Figures**
- **Text to the figures**
- **Address for correspondence**

Tables and illustrations (graphs, drawings) should be given on separate pages and numbered in Arabic numerals according to their sequence in the text. Each table should have a title comprehensible enough without reading the text. Graphs and drawings should be made with maximum clarity. Duplication of data from the tables is not accepted. Digital photographs should be with resolution at least 300x300 dpi. Preferred formats are *.JPG, *.TIFF, *.EPS, *.AI. The color images are for the online version of the Supplement, whereas the printed version will contains images in black and white. Graphs have to be presented in black and white, preferably in *.XLS format for facilitation of printing process. The editorial office may request a clean set of photographs for design purposes. The scale of the figure is indicated at the right bottom by a line scale and the size is given in parentheses at the end of the figure caption, e.g. (bar = 10 μ m).

References. In all citations in the text the author's family name and the year of the publication should be given e.g.: (Morris, 2017). If the authors are two, both names are referred to e.g.: (Barton & Moore, 2015), and if they are 3 or more: the first author's name should be used, followed by "*et al.*" e.g.: (Levi *et al.*, 2014). If several authors are cited, their names are chronologically arranged and if their publications are in one and the same year – alphabetically.

The arrangement of the publications should be done in alphabetical order according to the first author's name. If several publications by the same author are referred to, the following order should be used: publications of the single author, followed by publications with co-authors. Publications by the same author(s) in the same year should be listed as: 2015a, 2015b etc. Examples for the reference style are given below.
