Winter School of Research Commercialisation

University of Zagreb Faculty of Pharmacy and Biochemistry, Croatia
28 – 30 November 2019

Organiser: University of Zagreb Faculty of Pharmacy and Biochemistry and University of Zagreb, Centre for Research, Development and Technology Transfer

Venue: Faculty of Pharmacy and Biochemistry, No. 1 A. Kovačić Street, Zagreb, Croatia

Expected number of participants: 40

Background and aims

The Winter School of Research Commercialisation is an intensive three-day course designed for PhD students, postdoctoral fellows and early career academics who are interested in gaining skills needed to successfully collaborate with the pharma, biotech or healthtech industry partners, or to set up a company in the healthcare field.

Leading European business and academic experts, as well as health -entrepreneurs, will be teaching a carefully integrated programme, with lecturers available for informal discussions.

The Winter School aims to provide a supportive and stimulating international setting where participants can present innovations originating from their research, receive feedback, and establish valuable business and academic contacts for the future.

Topics to be covered include:

- The values, possibilities and challenges of collaboration between the academia and industry;
- Career options for PhDs in health related industries;
- Research based entrepreneurship in the healthcare and biotech fields;
- Intellectual property management in support of research and innovation;
- Pitching innovation based on your research for funding or collaboration to investors or industry.

Who should attend:

The Winter School invites PhDs students, postdocs and other early career academics from all fields with contributions to development of healthcare solutions.

The University of Zagreb Faculty of Pharmacy and Biochemistry has preapproved the course as an elective course within the framework of the doctoral Pharmaceutical-Biochemical Sciences study programme.

All participants should have a professional proficiency in English (the working language of the School).

Registration and Deadline:

The registration fee is 100,00 HRK.

The registration deadline is 10 November 2019.

Online registration will be available from 28 October 2019.
