

High Risk Pregnancy in the Mare

September 27, 2023

Zagreb, Croatia

Patricia Sertich, MS, VMD, Diplomate American College of Theriogenologists

Problems that develop during pregnancy not only put the fetus at risk but also threaten the life of the broodmare. The diagnosis and management of twin pregnancy, hydrops, placentitis will be presented. The seminar will also include discussion of post partum problems seen in mares following dystocia, and cesarean section.
