To enroll in the 12th semester in the 2024/2025 academic year, students must have registered the subject of their Master's thesis (Graduation thesis).

Students are required to earn 2 ECTS credits from the elective course offerings in the 12th semester. Students who wish to enroll in more than the minimum number (2 ECTS credits) and up to a maximum of 5 ECTS credits can choose from all elective courses offered in the study program that they have not previously taken in earlier semesters before enrolling in the 12th semester. Students can choose electives from the earlier study years – please be careful because it can be in collision with the schedule from the XII semester.

IMPORTANT!

Upon fulfilling all obligations (completion of all enrolled and attended courses, as well as submission of the External Practical Training Work Log), 12th-semester students may submit a request for the evaluation of the 12th semester no later than June 13, 2025, if they plan to defend their Master's thesis during the summer exam period, concluding by July 15, 2025. At least seven days before the Master's thesis defense date, students must submit the following to the Office for Integrated Undergraduate and Graduate Studies: four bound copies of the thesis, the mentor's opinion and grade, the student Index, confirmation of book returns from the Faculty Library, and a formal request for the thesis defense.

Upon fulfilling all obligations, 12th-semester students may initiate the review process for the final version of their Master's thesis before proceeding with the defense process by July 8, 2025, and between September 1 and September 15, 2025.

The External Practical Training Work Log must be submitted to the Office for Integrated Undergraduate and Graduate Studies no later than September 5, 2025, after completing all obligations.

Master's thesis defenses for the autumn exam period of the 2024/2025 academic year can be planned between September 1 and September 30, 2025.

Each student is responsible for verifying the successful enrollment of courses and regularly checking the status of their courses in the Studomat.

Students who have taken classes in the winter semester of the 2024/2025 academic year but have not completely met the requirements for enrolment in a higher semester of study may only enrol in classes in the obligatory subjects in the summer semester according to the requirements for enrolment in classes (enrolment in classes in elective/obligatory-elective subjects is not permitted), that is, the remainder of the ECTS points required in addition to the highest number of ECTS points they have already acquired in the year they are repeating.
